

# Index to Volume 23, 1986

- Acetate, plasma, measurement by manual or automated technique, in diabetic and non-diabetic subjects **285**
- N-Acetyl- $\beta$ -D-glucosaminidase (NAG) urinary level, effects of age and urine concentration **297**  
effect of hydropenia and oral water loading, man **453**  
enzymuria, in leukaemia and myelomatosis, effect of treatment **676**
- Acetylcholinesterase, erythrocyte activity, effect of ethanol **458**  
measurement by differential pH technique **538**
- ADDISON GM *see* KRSKA J *et al.*
- Adenine phosphoribosyltransferase deficiency, simple screening method using dried blood spots on filter paper **529**
- Adrenal steroidogenesis, assessment of *in vitro* biopotency and site(s) of action of drugs affecting: Ames Award, Winning Lecture 1985 **225**
- Agarose, flat bed isoelectric focusing in, and chemical precipitation, in identification of apolipoprotein E isoforms **509**
- AIDS samples, safe handling, effect on biochemical values of heat treatment of plasma **102**
- ALBERTI KGMM *see* MARSHALL SM and ALBERTI KGMM PETRANYI G *et al.*
- Aldosterone radioimmunoassay evaluation, renin-angiotensin-aldosterone axis as function of sex and age **65**
- Alkaline phosphatase and cholestasis: review article **405**  
plasma, activity, relation to rickets, pre-term infants **652**
- Alkaptonurics, urine from, artifacts produced by homogentisic acid in examination: technical note **354**
- ALLEN MC *see* HAND CW *et al.*
- Alpha-1-antichymotrypsin, measurement by immunoturbidimetry **206**
- Alpha-fetoprotein determination in screening for fetal neural tube defects, enzyme-linked immunosorbent and radioimmunoassay compared **334**
- Aluminium in human tissues, determination by flameless atomic absorption spectroscopy and comparison of reference values **97**
- Ames Award winning lecture 1985: On the assessment of the *in vitro* biopotency and site(s) of action of drugs affecting adrenal steroidogenesis **225**
- Aminoglutethimide and danazol in breast cancer treatment, antagonism between, biochemical basis **277**
- $\Delta$ -Aminolaevulinic acid dehydratase as index of presence and severity of lead poisoning in lead exposure **521**
- Amylase, plasma, activity, measurement: review article **624**
- Analysers, automatic, computing aspects, evaluation **585**
- Analysis time, effects on cost of out-of-hours investigations **501**
- ANDERSON SH and NICOL AD: A fluorimetric method for measurement of erythrocyte transketolase activity **180**
- Androgen disorders, testosterone measurement in investigation: review article **113**
- Antiepileptic drugs, separation by high-performance liquid chromatography, mobile phase optimisation **559**
- Apo-aspartate transaminase, pig heart, as direct assay for pyridoxal 5'-phosphate **317**
- Apolipoprotein E isoforms, identification employing chemical precipitation and flat bed isoelectric focusing in agarose **509**
- ARCOCHA V *see* RODRIGUEZ-SEGADA S *et al.*
- Arterial blood samplers, new, three, evaluation **329**
- ASHBY D *see* BROUGHTON PMG *et al.*
- ASHBY JP, WRIGHT DJ and RINSLER MG: The adjusted serum calcium concept—a reappraisal **533**
- ASTLEY P *see* ISMAIL AAA *et al.*
- ATKINSON P: Phadebas B2 micro test: correspondence **110**
- ATKINSON T *see* PRICE CP *et al.*
- BACON RRA *see* JEFFCOATE SL *et al.*
- BAILEY JE *see* INGLE AR *et al.*
- BALDWIN D *see* BEVAN JS *et al.*  
HAND CW *et al.*
- BALDWIN I *see* ROLLS S *et al.*
- BANDO K, ICHIHARA K, SHIMOTSUJI T, TOYOSHIMA H, KODA K, HAYASHI C and MIYAI K: Reduced serum carnosinase activity in hypothyroidism **190**
- BARENGHI L, CEROTTI F, LUZZANA M, RIPAMONTI M, MOSCA A and BONINI PA: Measurement of erythrocyte acetylcholinesterase and plasma cholinesterase activity by a differential pH technique **538**
- BARLOW RD, THOMPSON SG, CUCKLE HS, WALD NJ and VOLLER A: Comparison of an ELISA with a RIA method for serum alpha-fetoprotein determination in screening for fetal neural tube defects **334**
- BARNES AJ *see* MOORE JC *et al.*
- BARON DN: Ideas towards a general theory of clinical biochemistry: Wellcome Lecture 1986 **615**  
*see also* MIKHAILIDIS DP *et al.*
- BARTON IK, MANSELL MA and HILTON PJ: A simple method for the measurement of red-cell calcium concentration: technical note **610**
- BEASTALL GH *see* JEFFCOATE SL *et al.*
- BECKETT G, LAWRENCE C, SCRIVEN A and STRANGE R: Plasma bile salt levels and liver disease: correspondence reply **109**
- Bence Jones protein detection, rapid immunoblotting technique for routine use on unconcentrated urine **571**
- Benzoyllecgonine, urine, single-reagent fluorimmunoassay **37**
- BERG JD *see* PRICE S *et al.*
- BERRY J, BETTS P and WOOD PJ: The interpretation of bloodspot 17 $\alpha$ -hydroxyprogesterone levels in term and pre-term neonates **546**
- BETTS P *see* BERRY J *et al.*
- BEVAN E *see* FERNS GAA *et al.*

- BEVAN JS, BALDWIN D and BURKE CW: Sensitive and specific bromocriptine radioimmunoassay with iodine label: measurement of bromocriptine in human plasma 686
